Circular Instructions to Secretaries of various Sub-Committees.

1. In accordance with the resolutions passed by the Central Relief Committee held on the 23rd February 1874, you are requested to form a sub-committee of the gentlemen named in the accompanying list, and yourself to act as *ex-officio* Member and Secretary to the said sub-committee.

2. At present it is not contemplated doing more than so arranging that if any case of distress appears it may be at once relieved.

3. For this purpose a certain sum of money will be placed in the hands of the Secretary to each sub-committee.

4. The Central Committee will have to rely on the members of sub-committees to bring at once to their notice all cases of real distress occurring in their neighbourhood.

5. It should be made known in every village that any one actually unable to support himself may obtain means of subsistence by applying to the Secretary or any member of the sub-committee, who, on application being made to any of them, should satisfy themselves by inquiring at the applicant's home, whether he *in fact* is unable to obtain subsistence; able-bodied men and women should be directed to apply to the District Engineer for employment on relief works; and the Secretary should report *at least once a week* to the Secretary to the Central Committee the number and class of persons who have applied for relief during the week, and the way in which such applications have been disposed of.

6. Applicants for relief, if thought proper objects, will receive from the Secretary daily his rice and salt (purchased from the money in his hands) to sustain life; if the sum in hand is being exhausted, the Secretary will make early application for a further supply. Any cases in which women who do not leave their houses may require support must be specially reported.

7. In distributing *charity*, it must be borne in mind that the amount in hand will not be appropriated to relieving pilgrims who may proceed to Juggernath, but this is not to be understood as prohibiting the Secretary from supplying a pilgrim actually in a starving condition.

8. Accounts are to be kept carefully and in the form to be prescribed hereafter.

By order of the Central Committee.

OPENDRO CHUNDRA MOOKERJEE,
Honorary Secretary.

Having heard reports from the various sub-committees, it was resolved—

(1) That a sum of Rs. 25 be sent to each out-lying sub-committee to meet any urgent cases of distress, and that a sum of Rs. 10 each be placed in the hands of the two Sub-Deputies, the Deputy Inspector, and Sub-Inspector of Schools.

(2) That a weekly account be sent in in a form furnished by the Secretary.

(3) That before undertaking the supply of rice to Pergunnah Mohishra, attempts be made to induce private traders to perform the work, the committee engaging to erect golas for its storage.

(4) That at present in the town of Bankoora only cooked food be given and at half rations, because it appears that private charity is still not exhausted.

(5) That Baboos Modon Nundi, Nobin Chutterjee, and Ramchunder Ditchit be requested to draft a scheme for the relief of indigent weavers by means of advances, to report next meeting.

(6) That Ramlall Dass be appointed clerk at a salary of Rs. 15 a month.

(7) That a meeting be held every Monday, next to be on the 23rd instant.

(8) That subscriptions be invited on all sides.

(9) That members of the committee resident in Bankoora be requested in rotation to supervise the distribution of food.

REPORT OF THE PROCEEDINGS OF A MEETING HELD AT THE DACCA BRAHMO SOMAJ HALL ON THE 3RD MARCH 1874, TO RAISE SUBSCRIPTIONS FOR THE RELIEF OF THE PEOPLE SUFFERING FROM THE PRESENT SCARCITY OF FOOD.

A meeting was held this day, at 4 o'clock, in the Brahmo Somaj Hall, for the purpose of raising subscriptions for the relief of the people suffering from the present scarcity of food. The Divisional Commissioner, Mr. F. R. Cockerell, who presided, commenced the proceedings by addressing the meeting as follows:—

GENTLEMEN,—The great calamity, which is the cause of our meeting here to-day, is of such vast proportions, has been so long looming upon us from the distance, and is consequently so well known, not only to all whom I am addressing now, but probably to the entire population of the many large towns and villages throughout the eastern districts, where stores of grain are to be found, and to which the activity of the export trade has penetrated, proclaiming by the extent of its operations in the most significant and unmistakeable language, the terrible fact of a great dearth prevailing over wide tracts of country, that no discussion is needed to demonstrate the certainty of there being a great work to be done, taxing all the strength of charitable effort; but until very recently it was impossible to define with anything approaching to accuracy the extent to which the population of the famine-stricken districts would be absolutely dependent on extraneous food-supplies.

The active enquiries of the Government officers, under the personal direction of Sir Richard Temple, have resulted in the formation of very detailed estimates as to the number of persons throughout the most distressed tracts who will need to be supported, and the period for which they must be maintained.

A glance at the map affixed to yonder wall will show you the exact position of the districts where the dearth of food is greatest; they embrace a continuous area, it may be said, from the Bogra district on the east to that of Chumparun forming the western boundary, with the Nepal frontier as the northern and the River Ganges as the southern line of demarcation. I do not mean to say that distress is absolutely confined to this region, as it is

unhappily to be met with in parts of the Gya and Monghyr districts, in places in Nuddea and the 24-Pergunnahs, in Burdwan and Hooghly, and some parts of the Chota Nagpore Division. But by far the worst tract is that comprised in the districts north of the Ganges which I have just indicated, and of these the greatest need of relief is expected in great part of Chumparun, Northern Tirhoot (especially in the Durbhunga, Seetamurhee and Mudhoobunnee subdivisions), the trans-Gangetic portion of Bhagulpore (especially in the country round Soopool), and the north-western portion of Dinagepore. In Tirhoot alone, out of an entire population of 4 millions, it is calculated that 25 per cent., or about one million persons, will have to be supported partially or wholly for a period of about seven months, and that the numbers to be supported for a like period in Chumparun and Sarun, respectively, will be about 400,000 and 280,000. Such precise estimates do not appear yet to have been made in respect of Northern Bhagulpore or Dinagepore, but, on a rough calculation, the entire number requiring to be supported throughout Chumparun, Sarun, Tirhoot, Bhagulpore, Purneah and Dinagepore, will be from 3½ to 4 millions.

It is true that this estimate includes the large proportion of the population capable of labor, and who are, and will continue as long as possible, to be supplied with suitable labor; but amongst such vast numbers there must be a very great many unfit for any kind of labor, and long before the expiration of the period during which the people must be supported, the advent of the rainy season will render it difficult to find means of employing laborers profitably. Hence, the task of gratuitous relief in these particular tracts is stupendous, and one which the funds raised by charity, with whatever degree of zeal and unanimity its efforts might be put forth, could hardly be expected to cope with. The Government, anticipating this, have determined to accept the entire responsibility of the cost of maintaining life in these tracts, and leave us the field for employment of the means obtained from charity, the administration of relief in those districts or tracts in which the anticipated general distress and suffering is less severe, and also in all districts amongst those classes who are not accustomed to hard work, and who if left to themselves would undergo any privation, even to the sacrifice of life, rather than show themselves in the ranks of pauperism.

This policy of the Government is clearly indicated and summarized in the final paragraph of a Notification just published by the Executive Relief Committee in Calcutta, which I will read to the meeting:—

"In districts, therefore, where the distress is now, or anticpated to become, very great, the aid given by the Central Famine Relief Committee will be restricted to grants to local committees for charitable purposes, Government providing labor and grain and undertaking the cost of the transport and of all establishments; while in other parts, where high prices may press on the poorer classes, the Central Committee will establish a system of charitable relief through local committees. The result of the above is that, in the very distressed districts the Government will provide both for the able-bodied working classes, and for those reduced to actual pauperism, while private liberality will be applied to the relief of those who are neither accustomed to hard work nor of a class to be treated as paupers, and whom a little pecuniary or other aid, or the provision of light labor in their houses or at their doors, may save from pauperism, and enable to tide over the season of distress with self-respect and without loss of social position, or more than relievable suffering."

Here, then, we have set before us the objects to which such funds as our united efforts may succeed in raising are to be devoted, and I confidently predict that they will commend themselves to the strongest sympathies of at least the majority of those whom I am now addressing.

Where almost the entire population has, through failure of crops, been deprived of its means of subsistence, the State will undertake the arduous duty and responsibility of doing, so far as may be practicable, all that is needful to preserve life and alleviate human suffering.

But the distress, which is the result of high prices of food, in places where grain is to be bought, but at such abnormally high rates as to place the needful quantity beyond the means of the poor but respectable classes, is the natural object for the expenditure of funds derived from charity; and it will, I think, be agreed that the line of demarcation, if I may so describe it, which has been laid down between the field of action of the State relief operations and that of the Executive Committee, which has been formed as the direct agency for the administration of the relief fund raised by subscription, has been wisely determined. I am sure that the relief of those who, unaccustomed to hard labor, whether from their sex, caste, or social position, suffer more keenly, by reason of their natural inability to do anything for themselves, from the hard times through which we are passing, and who would consent to any privation, even to the sacrific of life, sooner than place themselves in the ranks of pauperism, and throw themselves upon the charity of others, is the task that has the strongest claims upon our sympathies, and should encourage us to make strenuous efforts in promoting the raising of a substantial fund.

I may add as a further reason for the expenditure of contributions on the relief of these classes, that they will never abuse the liberality of the donors. His Excellency the Viceroy drew attention at the meeting held in Calcutta to the well-known fact that there is no country in the world in which there is less risk of engendering a disposition on the part of the people relieved to *remain* dependent on the aid of charity. The people of this country generally, and especially the classes who are the chief objects of our endeavours to raise funds, are characteristically self-dependent, and will not allow themselves to subsist on the

charity of others a day longer than the pressure of circumstances renders it necessary. No fact in connection with past seasons of dearth and high prices of food has been more clearly brought out than this.

Well then, gentlemen, the object of our charitable efforts being thus plainly defined, we come to the consideration of the question as to the obligation on us here assembled, who aim at representing the people of the eastern districts, to contribute to the relief of the distress which is prevailing, and likely for sometime to prevail, in so many parts of the country.

I know that a doubt has been expressed, if not in Dacca, at least in some districts of the division, whether the people are not as badly off here as in the distressed tracts before referred to, and can therefore reasonably be asked to help others—and a comparative review of the reported prices-current is assigned as the reason for this doubt. In regard to published prices-current, I would say that the returns cannot be taken by themselves as a certain indicator of the relative degrees of popular distress. I observe in a list now before me, quoting the prices-current in several districts and places up to very recent dates, that, with the exception of Tirhoot, rice was selling here as dear as in Calcutta; yet it could not be thought that there was great distress amongst the population of Calcutta, where the population was, as a rule, far better off by reason of higher wages and other circumstances, than the people of Tirhoot and some of the other distressed tracts, and could better stand the pressure of high prices. And so it is here in the eastern districts—the people are much better off. Wages of the ordinary laborer in Behar are scarcely more than ⅔rds of the rate prevailing in this division. I know there are some industrial classes in this town, and probably other towns in this division, whose particular branches of industry are on the decline, and who, at a time like the present, are doubtless considerably straitened and subjected to much privation. But that is not the case with what I may call the landed interest of Eastern Bengal, in which term I include the zemindar, the middleman, and cultivating ryot—all, in short, who intercept any portion of the produce of the soil—to whom especially my appeal for aid is addressed; and whatever may have been the effect of the "hard times" on other classes, I assert without fear of contradiction, that for these classes—and they form the great mass of the community of these parts—the great calamity has been a source of actual profit—and such has been the case; not only now but equally so, I believe, in all past seasons of dearth. Whatever may be the sad effects of a time of drought elsewhere, in the well-watered districts of Eastern Bengal the land is ever productive. Such being the case, there is, I venture to say, an irresistible and indefeasible obligation on the part of the people of Eastern Bengal, to come to the aid of their distressed fellow-countrymen of the western districts.

I will merely add two remarks, for I am unwilling longer to trespass on the time of this meeting—1st, that influential persons may do more towards the success of the cause for which we have met to-day, by inducing the humbler but well-to-do agricultural classes to contribute according to their means, setting on foot, in fact, a house-to-house invitation to subscribe, according to their means—and this without the intervention of gomastas and peons, whose rapacity where they are employed makes such attempts a grievous imposition upon the people—than by their own contributions on however large a scale, for great amounts are made up, not out of the liberal gifts of the few, so much as the petty contributions of the masses; and these, consequently, it should be our endeavour to reach by the present movement. My only remaining observation is that, perhaps some good might be done by landholders offering inducements to people of the distressed districts to come and settle on their estates where the population is sparse, and an opening for considerable extension of tillage exists. It has been suggested to me by a gentleman who has some experience of the Dacca and Mymensingh districts, that such a plan might be feasible, and, if so, I think it would unquestionably do much good, for I believe that the encouragements to emigration to Burmah have not been very successful in many parts of the distressed tracts—not that the people are disinclined to emigrate, but to go to a distant country such as Burmah, involving a passage across the sea, is distasteful, and they would sooner take their chance where they are than accept such entire expatriation; but if a field for immigration here, where no such great disadvantages would accrue, were opened up, the case might be different; at least, I would commend the matter to your consideration.

I will now call upon Mr. Lyall to move the first Resolution :—

Mr. D. R. Lyall, with a few preliminary remarks to the effect that, judging from his immediate observation in various parts of the district, and his general knowledge of the province, famine, or even distress to any appreciable extent, need not immediately be expected in the eastern districts, moved the following Resolution :—

First Resolution.—Moved by Mr. Lyall.

That a General Committee for promoting the raising of subscriptions throughout the Eastern Districts for the gratuitous relief of persons suffering from the present scarcity and consequent high price of food in many parts of Behar and Bengal be formed at Dacca. That the following gentlemen be appointed members of the Committee, with power to add to their number, and to form, in case of necessity, a Sub-Committee for the administration of relief in any of the Eastern Districts, and that the European and Native gentlemen of Sylhet, Mymensingh, Furreedpore, Backergunge and Tipperah be invited to form Branch

Committees at the Head-Quarters stations of those districts, for co-operating with the General Committee at Dacca, in effecting the objects before stated :—

Baboo Boroda Kinker Roy, a leading pleader of the Judge's Court, spoke in Bengali in support of the Resolution.

Baboo Rohini Coomar Bysack, another pleader of the Judge's Court, said :—

GENTLEMEN AND FELLOW-COUNTRYMEN,—We are called here to contribute what sums we can in aid of the distressed people in the famine-stricken districts of North Behar. The objects of the meeting, the extent, character, and magnitude of the calamity which hangs over the people inhabiting the tracts marked by the thick sable line in the map hung on the wall, have been pointed out to you by the Chairman. It now behoves us to feel for them, realize their condition, and do what lies in our power to alleviate their sufferings. If you were to present yourself in one of these afflicted localities, you might picture to yourself what sights would meet your eyes: men, women, and children all crying out for a mouthful of food. All is gloom and sorrow. The monotonous, melancholy aspect is visible everywhere. Not a busy hum of life to disturb the still solemnity of the dismal heavens. Such is the awful, heartrending scene to distract the sight and pain the heart. Parents who would devote their lives for their children are suffering under the excruciating pangs of hunger, and are incapable of doing that duty to them which Sir Sidney Smith did to his wounded comrade on the battle field. A correspondent from one of the famishing districts writing to a Calcutta daily paper said that a man earned six pice as his whole day's wages, and with it in the evening brought to his house a seer of *Alooa*, which he ate himself without giving the least morsel to his crying babes. Such are the heartrending accounts that reach us from these places, me wealthier countrymen! What avails your wealth if you do not spend a fraction of it to savy your countrymen? You all remember the lines you read in the Juvenile Course :—

When wealth to virtuous hands is given,
It blesses like the dews of heaven;
It hears the orphan's cries
And wipes the widow's tears.

My brethren, it is not the case of orphans and widows only, but indiscriminate humanity that now appeals to your sympathy. Go where you may, for miles and miles together, you

will find one universal cry of want among the poor. Come then, I exhort you, give in thousands, and the Moral Governor of the Universe will repay you with plenty. This is a fit occasion for you to open your purses. If men in foreign lands are grieved to hear of the distress in this country, and subscribe largely, should you not help your own countrymen? Brethren, sustain your reputation as a hospitable race. In ordinary times, men with ordinary means in the villages, feed as many as present themselves at meals and will not let them go away unfed. Come forth, therefore, and liberally respond to the call. As for you, my countrymen of moderate means, it behoves you to do the same duty with still greater alacrity, remembering that it is your fellow-beings who are the sufferers in these places pointed out to you by the Chairman in the map, and remember the native adage that ten men's sticks put together will make one man's load. I therefore reiterate, do not hesitate to to make the best of this opportunity and earn the blessings of the afflicted and dying, and grace before the throne of the All-Merciful.

The Resolution was then put to the meeting by the Chairman and carried unanimously.

Mr. Thoms urged in general terms the great necessity for active benevolence that the times presented, and, as charity begins at home, and the evidence of suffering to some extent was locally becoming apparent in the market fluctuations in the prices of food cereals, he thought it only prudent to move the following Resolution :—

Second Resolution.—Moved by Mr. A. Thoms.

That the money raised by subscription throughout the Eastern Districts form one consolidated fund for expenditure in gratuitous relief; that one-half be held as a reserve, so long as the Committee shall deem it necessary, for the administration of relief where required in any of the districts in which the money is raised, and that the remaining moiety be transmitted to the Executive Relief Committee in Calcutta, for application to relief measures under that Committee's control.

Mr. J. G. N. Pogose seconded the Resolution.

Baboo Obhoy Chunder Dass, Personal Assistant to the Commissioner, addressed the meeting in Bengali, strongly advocating the object of the Resolution, dwelling at length upon the duties and special obligations of the people of the Eastern Districts in this matter, and giving, for the information of those present, who might be supposed to be acquainted only with their own vernacular, a brief resumé of what had been said by those speakers who had previously addressed the meeting in English.

The Resolution was then put to the meeting by the Chairman and carried unanimously.

The Chairman then proposed the circulation of the subscription lists for entry of the subscriptions of those present, announcing that the following subscriptions amongst others had been already communicated :—

But such repeal shall in no way affect places in respect of which licenses have been granted or which have been registered under the provisions of Bengal Act VIII of 1871, and such places shall still remain subject to the provisions of such last-mentioned Act as if this Act had never been passed.

3. It shall be lawful for the Justices from time to time, if they shall think fit, with the sanction of the Lieutenant-Governor, to acquire land by purchase, lease, or otherwise, in order to provide places within the limits of the Town of Calcutta, for the purpose of being used as markets, and for the like purpose to purchase or take on lease any land, now used within such limits, as a market, or registered as such, upon such terms, or subject to such conditions as they may consider necessary, and to appropriate any lands now vested or belonging to them, and to set out the whole or such parts thereof as they may think necessary, for the purposes of such markets, and thereupon from time to time to build and maintain such markets and such stalls, sheds, pens, and other buildings or conveniences for the use of the persons frequenting such markets, and for weighing and measuring goods sold in such markets and on such lands as aforesaid, or on other land purchased for that purpose to make and maintain all such roads and approaches thereto as they may think necessary, and from time to time to make such bye-laws as they may think fit for all or any of the following purposes :—

Bye-laws to be hung up in markets.

5. All bye-laws made and sanctioned under this Act, in addition to being published as provided in Section 221 of Bengal Act VI of 1863, shall also be painted or placed on boards, and put up in the English and Bengalee languages in some conspicuous place in the markets established under this Act.

Power to Justices to carry on markets with Municipal funds.

8. It shall be lawful for the Justices out of the Municipal funds, as defined by Section 6 of Bengal Act VI of 1863 and out of the monies borrowed under the provisions of this Act, and out of monies derived from the rents of buildings, stalls, pens, or standings in any market, and from any fees realized from any market, to expend such sums of money as they may think necessary for the construction, maintenance, and keeping such market in repair, and for any other purpose or purposes which the Justices may deem necessary for establishing or carrying on the same or conducive thereto, and all sums of money heretofore expended by the Chairman of the Justices, or by the Justices, towards establishing, completing, opening, maintaining, keeping in repair, or carrying on any market are hereby declared and deemed to be considered and taken as if spent under the provisions of this Act.

Penalty to be recovered as under Act VI (B. C.) of 1863.

10. Every penalty imposed by this Act, or any Act incorporated therewith, or by any bye-laws in pursuance thereof, shall be recovered, enforced, and applied in the same manner as fines and penalties are directed to be recovered, enforced, and applied by Sections 233 and 234 of Bengal Act VI of 1863.

Construction of Act.

11. This Act shall be read with, and taken as part of, Bengal Acts VI of 1863 and VIII of 1871.

Short Title.

12. This Act may be called the "Calcutta Municipal Markets' Amendment Act, 1874."

STATEMENT OF OBJECTS AND REASONS.

This Bill has been framed with a view to remedy certain defects which are believed to exist in Act VIII of 1871 of the Bengal Council.

It was at the time of the passing of that Act supposed that the Justices had power not only to establish municipal markets, but also to carry them on and provide for the expenses out of the Municipal Fund; but this view is now believed to be erroneous, and the consequence is that the Justices have no power to expend money for carrying on a new market recently established by them in the neighbourhood of the Dhurrumtollah Market. It is necessary, therefore, that the Legislature should not only give them power to expend such money for the future, but should also give the Chairman of the Justices an indemnity in respect of money already expended.

The Bill also, in accordance with a Resolution passed by the Justices, gives them power to borrow a further sum of seven lakhs of rupees, in order to enable them to purchase the market called the Dhurrumtollah Market, and to carry on such market in the manner above mentioned.

It has also been thought necessary to give the Justices a wider discretion as to granting of licenses under Act VIII of 1871 of the Bengal Council.

I.—PRELIMINARY.

Short title.

'Decree' defined.

3. In this Act, unless there be something repugnant in the subject or context, the expression "decree" includes also judgment and order.

II.—ADMISSION OF APPEALS.

When appeals lie to Queen in Council.

4. Subject to such rules as may, from time to time, be made by Her Majesty in Council regarding appeals from the Courts of British India, and to the provisions hereinafter contained—

an appeal shall lie to Her Majesty in Council,

(*a*) from any final decree passed on appeal by a High Court or other Court of final appellate jurisdiction,

(*b*) from any final decree passed by a High Court in the exercise of original civil jurisdiction, and

(*c*) from any decree, when the case, as hereinafter provided, is certified to be a fit one for appeal to Her Majesty in Council.

Value of subject-matter.

5. In each of the cases mentioned in clauses (*a*) and (*b*) of section four,

the amount or value of the subject-matter of the suit in the Court of first instance must be ten thousand rupees or upwards, and the amount or value of the matter in dispute on appeal to Her Majesty in Council must be the same sum or upwards,

or the decree must involve, directly or indirectly, some claim or question to, or respecting, property of like amount or value,

and where the decree appealed from affirms the decision of the Court immediately below the Court passing such decree, the appeal must involve some substantial question of law.

Bar of certain appeals.

6. Notwithstanding anything contained in section four,—

no appeal shall lie to Her Majesty in Council from the judgment of one Judge of a High Court established under the twenty-fourth and twenty-fifth of Victoria, chapter one hundred and four, or of one Judge of a Division Court, or of two or more Judges of such High Court, or of a Division Court constituted by two or more Judges of such High Court, wherever such Judges are equally divided in opinion, and do not amount in number to a majority of the whole of the Judges of the High Court at the time being;

and no appeal shall lie to Her Majesty in Council from any decree which, under Act No. XXIII of 1861, section twenty-seven, is final.

Application to Court whose decree is complained of.

7. Whoever desires to appeal under this Act to Her Majesty in Council must apply by petition to the Court whose decree is complained of.

Time within which application must be made.

8. Such application must ordinarily be made within six months from the date of such decree.

But if that period expires when the Court is closed, the application may be made on the day that the Court re-opens.

Certificate as to value or fitness.

9. Every petition under section seven must state the grounds of appeal, and pray for a certificate, either that as regards amount or value and nature, the case fulfils the requirements of section five, or that it is otherwise a fit one for appeal to Her Majesty in Council.

Upon receipt of such petition, the Court may direct notice to be served on the opposite party to show cause why the said certificate should not be granted.

Refusal of certificate.

10. If such certificate be refused, the petition shall be dismissed:

Provided that, if the decree complained of be a final decree passed by a Court other than a High Court, the order refusing the certificate shall be appealable within thirty days from the date of the order, to the High Court to which the former Court is subordinate.

Security and deposit required on grant of certificate.

11. If the certificate be granted, the applicant shall, within six months from the date of the decree complained of, or within six weeks from the grant of the certificate, whichever is the later date,

(*a*) give security for the costs of the respondent, and

(*b*) deposit the amount required to defray the expense of translating, transcribing, indexing, and transmitting to Her Majesty in Council a correct copy of the whole record of the suit, except

(1) formal documents directed to be excluded by any order of Her Majesty in Council in force for the time being;

(2) papers which the parties agree to exclude;

(3) accounts, or portions of accounts, which the officer empowered by the Court for that purpose considers unnecessary, and which the parties have not specifically asked to be included; and

(4) such other documents as the High Court may direct to be excluded;

and when the applicant prefers to print in India the copy of the record, except as aforesaid, he shall also, within the time mentioned in the first clause of this section, deposit the amount required to defray the expense of printing such copy.

Admission of appeal and procedure thereon.

12. When such security has been completed and deposit made to the satisfaction of the Court, the Court may

(*a*) declare the appeal admitted, and

(*b*) give notice thereof to the respondent,

and shall then

(*c*) transmit to Her Majesty in Council, under the seal of the Court, a correct copy of the said record, except as aforesaid, and

(*d*) give to either party one or more authenticated copies of any of the papers in the suit on

his applying therefor and paying the reasonable expenses incurred in preparing them.

Revocation of acceptance of security.

13. At any time before the admission of the appeal, the Court may, upon cause shown, revoke the acceptance of any such security, and make further directions thereon.

Power to order further security or payment.

14. If at any time after the admission of the appeal, but before the transmission of the copy of the record, except as aforesaid, to Her Majesty in Council, such security appears inadequate,

or further payment is required for the purpose of translating, transcribing, printing, indexing, or transmitting the copy of the record, except as aforesaid,

the Court may order the appellant to furnish, within a time to be fixed by the Court, other and sufficient security, or to make, within like time, the required payment.

Failure to comply with order.

15. If the appellant fail to comply with such order, the proceedings shall be stayed,

and the appeal shall not proceed without an order in this behalf of Her Majesty in Council,

and in the meantime execution of the decree appealed against shall not be stayed.

Refund of balance of deposit.

16. When the copy of the record, except as aforesaid, has been transmitted to Her Majesty in Council, the appellant may obtain a refund of the balance, if any, of the amount which he has deposited under section eleven.

III.—Proceedings pending Appeals.

Powers of Court pending appeal.

17. Notwithstanding the admission of any appeal under this Act, the decree appealed against shall be unconditionally enforced unless the Court admitting the appeal otherwise directs.

But the Court may, if it think fit, on any special cause shown by any party interested in the suit, or otherwise appearing to the Court—

(*a*) impound any movable property in dispute, or any part thereof, or

(*b*) allow the decree appealed against to be enforced, taking such security from the respondent as the Court thinks fit for the due performance of any order which Her Majesty in Council may make on the appeal, or

(*c*) stay the execution of the decree appealed against, taking such security from the appellant as the Court thinks fit for the due performance of the decree appealed against, or of any order which Her Majesty in Council may make on the appeal, or

(*d*) place any party seeking the assistance of the Court under such conditions, or give such other direction respecting the subject-matter of the appeal, as it thinks fit.

Increase of security found inadequate.

18. If at any time during the pendency of the appeal the security so furnished by either party appears inadequate, the Court may, on the application of the other party, require further security.

In default of such further security being furnished as required by the Court, if the original security was furnished by the appellant, the Court may, on the application of the respondent, issue execution of the decree appealed against as if the appellant had furnished no such security,

And if the original security was furnished by the respondent, the Court shall, so far as may be practicable, stay all further execution of the decree, and restore the parties to the position in which they respectively were when the security which appears inadequate was furnished, or give such direction respecting the subject-matter of the appeal as it thinks fit.

IV.—Execution of Orders of Her Majesty in Council.

Procedure to enforce orders of Queen in Council.

19. Whoever desires to enforce or to obtain execution of any order of Her Majesty in Council shall apply by petition, accompanied by a certified copy of the decree or order made in appeal and sought to be enforced or executed, to the Court from which the appeal to Her Majesty was preferred.

Such Court shall transmit the order of Her Majesty to the Court which made the first decree appealed from, or to such other Court as Her Majesty by her said order may direct, and shall (upon the application of either party) give such directions as may be required for the enforcement or execution of the same; and the Court to which the said order is so transmitted shall enforce or execute it accordingly, in the manner and according to the rules applicable to the execution of its original decrees.

Appeal against order relating to execution.

20. The orders made by the Court which enforces or executes the order of Her Majesty in Council relating to such enforcement or execution, shall be appealable in the same manner and subject to the same rules as the orders of such Court relating to the enforcement or execution of its own decrees.

Amendment of Act IX of 1871, schedule II, No. 169.

21. To the first column of No. 169 of the second schedule annexed to the Indian Limitation Act, 1871, the following words shall be added (that is to say), "or any order of Her Majesty in Council."

V.—Miscellaneous.

Power to make rules.

22. The High Court may, from time to time, make general rules consistent with this Act to regulate—

(*a*) the service of notices under section nine,

(*b*) the grant or refusal of certificates, under sections ten and eleven, by Courts of final appellate jurisdiction subordinate to the High Court,

(*d*) the testing of such security,

(*e*) the estimate of the cost of transcribing the record,

(*f*) the preparation, examination and certifying of such transcript,

(*g*) the revision and authentication of translations,

(*k*) the preparation of indices to transcripts of records, and of lists of the papers not included therein,

and all other matters connected with the enforcement of this Act.

Publication of rules.

All such rules shall be published in the local official Gazette, and shall thereupon have the force of law in the High Court and the Courts of final appellate jurisdiction subordinate thereto.

Rules heretofore made.

All rules heretofore made and published by any High Court relating to appeals to Her Majesty in Council and in force immediately before the passing of this Act, shall, so far as they are consistent with this Act, be deemed to have been made and published hereunder.

Recorder of Rangoon.

23. In sections four and twenty-two, the expression 'High Court' shall be deemed to include also the Recorder of Rangoon, but not so as to empower him to make rules binding on Courts other than his own Court.

Construction of Bengal Regulation III of 1828, section 4, clause 5.

24. The rules and restrictions referred to in Bengal Regulation III of 1828, section four, clause five, shall be deemed to be the rules and restrictions applicable to appeals under this Act from the decisions of the High Court of Judicature at Fort William in Bengal.

Saving of Her Majesty's pleasure,

25. Nothing herein contained shall be understood—

(*a*) to bar the full and unqualified exercise of Her Majesty's pleasure in receiving or rejecting appeals to Her Majesty in Council, or otherwise howsoever, or

and of the rules for the conduct of business before the Judicial Committee.

(*b*) to interfere with any rules made by the Judicial Committee of the Privy Council and for the time being in force for the presentation of appeals to Her Majesty in Council, or their conduct before the said Judicial Committee.

Limits of authority of authorized reports extended.

2. Every judgment delivered on or after the said day by any of the said High Courts (whether by a Judge sitting alone, or by a Division Court, or by a Full Bench) and reported in the said Indian Authorized Law Reports, shall have the same authority in all subordinate Courts beyond the limits of the appellate jurisdiction of such High Court as independently of this Act it would have within such limits.

All Courts other than Courts established under the twenty-fourth and twenty-fifth of Victoria, cap. 104, shall be deemed to be "subordinate Courts" within the meaning of this section.

Authority given only to authorized reports after passing of Act.

3. No Court shall be bound to hear cited or shall receive or treat as an authority binding on it the report of any case decided by any of the said High Courts on or after the said day, other than a report published under the authority of the Governor-General in Council.

Authority of judicial decisions.

4. Save as provided by section two, nothing herein contained shall be construed to give to any judicial decision any further or other authority than it would have had if this Act had not been passed.

STATEMENT OF OBJECTS AND REASONS.

This Bill has been framed on the assumption that law-reporting in India should be regarded as a branch of legislation, and on the corollary that such work, so far at least as regards the decisions of the four High Courts, should be performed under the superintendence of Government.

Improvements in quality and arrangement may reasonably be expected from having the decisions of the High Courts reported only by competent persons and revised by a central editor. And it is desirable, and is one of the objects of the present Bill, to extend the local limits of the authority of decisions so reported and revised.

At present a decision (say) of the High Court at Fort William is binding only in the Lower Provinces. The Bill declares that every judgment delivered by any High Court and reported in the Government Reports shall be binding on all subordinate Courts throughout British India; and the Chief Court of the Panjáb, and the Courts of the Recorder of Rangoon and the Judicial Commissioners, are declared to be 'subordinate Courts' for the purpose only of the Bill.

At present, again, six sets of Reports are published in India, at an annual cost to the purchaser of about Rs. 300. To diminish the number and expense of the Reports which professional men must buy and read, is another object of the Bill. With this view, it declares that no Court shall be bound to hear cited, or shall treat as a binding authority, the report of any case decided by any High Court after the 1st January 1875, other than a report published under the authority of Government. Under the Evidence Act, section 84, the Courts will presume the genuineness of the authorized reports.

Cases decided on local Acts and of no general application will, when of sufficient importance to be reported, be published in separate volumes.

RESOLUTION.

The 6th April 1874.—By the death of Mr. J. H. Ravenshaw the number of Judges of the first grade is reduced to fifteen, at which it is to remain.

2. The appointment of a Judge of the second grade in the vacancy in the class of Judges caused by Mr. Ravenshaw's death gives a saving of Rs. 500 per mensem, which, with the surplus (Rs. 100) left by the arrangements made on Sir William Herchel's promotion from a first grade Judgeship to the Commissionership of the Cooch Behar Division, will amount to Rs. 600 per mensem. This has enabled His Honor to raise two more officers from the third grade (on Rs. 1,500) to the second grade (on Rs. 1,800), which, with thirteen officers already in the second grade, makes fifteen second grade Magistrates and Collectors—the number at which it is intended to stand. There are now, therefore—

15 Judges of the 1st class	15 Magistrate-Collectors, 2nd class.
15 Ditto 2nd ditto.	6 Ditto 3rd class.
15 Magistrate-Collectors, 1st class.	1 Superintendent of Survey (classed with Magistrate-Collectors on Rs. 1,500).

3. The only remaining small saving to be effected is when the two additional Judges on Rs. 2,166-10-8 fall in, when their successors will have Rs. 2,000 per mensem. In the meantime these officers will be classed as second grade Judges.

Endorsement from the Foreign Department, No. 1274P, dated the 22nd June 1871, forwarding, for disposal, replies to a Circular issued in May 1869, inquiring how far the rules sanctioned for Bengal to regulate the importation and transport of Arms and Ammunition would be suitable for the other provinces.

Circular to Local Governments and Administrations, Nos. 40—2630 to 2633, dated 14th August 1873, and replies received.

RESOLUTION.

IN MAY 1869 the Government of India in the Foreign Department sanctioned certain rules for regulating the importation of fire-arms and ammunition into the Lower Provinces of Bengal, and their transport from place to place within the limits of those provinces, under the provisions of Sections 17 to 22 of Act XXXI of 1860, and at the same time issued a Circular to the other Local Governments and Administrations inquiring how far such rules would meet their respective requirements.

2. From the replies received it appears necessary to frame uniform regulations for placing the importation and inland transport of cannon and arms and ammunition under systematic control throughout British India.

3. And from other portions of the correspondence read, it appears desirable to prohibit the transhipment of cannon and arms and ammunition at certain British Indian ports, and to restrict the granting of passes for the exportation of cannon and arms and ammunition from British India.

4. The Governor-General in Council is therefore pleased to declare as follows:—

Firstly, as regards the importation of cannon and arms and ammunition, that licenses for import under Section 17, Act XXXI of 1860, will henceforward be granted only at places and by the officials named in the list appended to this Resolution. These orders will supersede the Notifications issued from the Home Department in October 1860 and July 1866, which authorized the chief police officer in every town and frontier district to grant licenses, and so much of the Foreign Office Notification of 1869 as relates to the importation of arms, &c., by sea or by land into India; also so much of the Notification (dated 22nd July 1873) which appeared in the *Calcutta Gazette* of 23rd July 1873, as relates to the importation of fire-arms and ammunition into the territories under the Government of Bengal.

Secondly, as regards the transhipment of arms, &c., that a Notification has issued under Section 6 of Act VI of 1873, prohibiting such transhipment at the ports to which that Act extends.

Thirdly, as regards the inland transport of arms, &c., from one part of India to another, that the rules, of which a copy is appended to this Resolution, are approved, and that they be published under Section 22 of Act XXXI of 1860: further that, in order to enable the Local Administrations under the Government of India to make similar rules for interior transport within their respective territories, a Notification has issued delegating to the Chief Commissioners

the power conferred upon a local Government by Section 22 of Act XXXI of 1860.

Fourthly, as regards the granting of passes for exporting arms and ammunition, that no such passes shall in future be granted for exportation either by land or sea, except by the Secretary to the Government of India in the Foreign Department, and such other officers as the Government of India, or the Governments of Madras and Bombay within their respective Presidencies, may have expressly authorized, or may hereafter expressly authorize, in this behalf. That all such passes shall be granted, subject, as far as may be, to the rules for the transport of arms within British India, and that, whenever there is a Political Agent, Cantonment Magistrate, or other British official at the place of destination, the pass shall be delivered to him within six days of the arrival there of the articles covered by it, with a view to his satisfying himself that there is no deficiency, in the same manner as a Magistrate of a British district is required to do by the inland transport rules.

NOTIFICATION.

UNDER the authority vested in him by Section 22 of Act XXXI of 1860, the Governor-General in Council is pleased, in supersession of all previous orders on the subject, to prohibit the transport of fire-arms and parts of fire-arms, and of gunpowder and other ammunition or military stores as described in Section 22 of the Act above cited, from any place in British India within the jurisdiction of one local Government or Administration to any place in British India within the jurisdiction of another local Government or Administration, except under the following rules and conditions.

2. Any person desirous of transporting any of the above-mentioned articles [except in reasonable quantities for his own private use] from any of the sea-port towns or frontier stations into which arms can be imported under license, into the interior of British India beyond the territorial jurisdiction of the local Government or Administration within the limits of which such sea-port or station is situated, must apply for a pass to the officer empowered by the Government of India to grant licenses under Section 17 of Act XXXI of 1860 for import to the sea-port or station.

3. When a person is desirous of transporting any such articles from any place in British India other than the sea-ports or stations referred to in the last preceding rule, to any place in British India within the territories of another local Government or Administration, he must apply for a pass to the Secretary to the Government of India in the Home Department, or to the Secretary to the Local Government of the territory out of which he desires to convey the articles, or to such other officer as the Government of India may have authorized by Notification to grant such a pass.

4. The application must in either case be in writing; it must specify the town, station, or other place into which the articles are intended to be transported, and must contain full information as to the quantity, quality, and description of the articles and the purpose for which they are respectively designed. Where the articles have been imported from abroad, the license under which they have been imported must be appended.

5. It will be within the discretion of the authorized officer to grant the pass if from the information thus given and otherwise obtained he considers that such pass may be safely granted. A register shall be kept of all passes so granted, and a copy of each pass shall be sent to the Magistrate of the district within which the place to which the articles are to be transported is situated.

6. The articles covered by such pass shall be taken direct to the place of destination mentioned in the pass without being sold or made use of at any intermediate place.

7. On the articles reaching their destination, the person in charge thereof must deliver the pass to the Office of the Magistrate of the district within six days. It will be the duty of that officer to satisfy himself that the articles transported correspond with the entries in the pass, and to see that any deficiency that may exist is satisfactorily accounted for. The pass shall then be endorsed and returned to the holder if he may lawfully keep in his possession the articles of which it covers the transport.

FINANCIAL DEPARTMENT.

Calcutta, the 24th March 1874.

The attention of Collectors and Treasury Officers is hereby directed to the Notification by the Government of India, No. 44, dated 10th January 1867, Financial Department, making it optional on the part of holders of Government Promissory Notes to register them at the Bank of Bengal, in the "Book Debt Account," receiving Stock Certificates in exchange for the notes. As the certificates are not transferable by endorsement, they form a safe and simple way of keeping Trust Funds in Government paper, without incurring the expense of the commission charged by the Banks for the custody of Promissory Notes. An instance has recently occurred in which expense was needlessly incurred from oversight of the Notification referred to. Officers in charge of Trust Funds are therefore reminded of the existence of this means of providing for their security.

(4.) That it should be left at the discretion of the same sub-divisional committee whether to make advances to weavers in cash or in materials.

The accounts were then laid before the committee and approved.

SOORY, the 25th March 1874. SHIB CHUNDER SHOME, *Secy., Dist. Relief Committee.*

Proceedings of a Meeting of the Midnapore Sudder Sub-Divisional Committee held on Saturday, the 21st March 1874.

The following gentlemen have consented to act as members of the Midnapore District Relief Committee.

PRESENT:

The Collector.
" Joint-Magistrate.
" District Superintendent.
Dr. Batchelor.
Dr. Phillips,
Baboo Kali Prossono Ray Chowdhoory.
" Jogondro Nath Roy, *Secretary to the District Relief Committee.*

2. The Collector opened the proceedings by stating that, as the sub-divisional officer at Gurbetta was new to his work, and as the relief of the weavers there would involve large expenditure, and was already to a certain extent provided for by the appointment of a special Deputy Magistrate, the superintendence of the relief of the weaver classes had better be undertaken by the Sudder sub-divisional committee. On the Collector's motion, therefore, it was resolved that this committee should take into their own hands the relief of the weavers and distressed classes in Chunderkonah, Ramjeebunpore, Kheerpoy, Radhanugur, Ghattal, and Kuarpore. The last, mentioned place is about 7 miles south of Chunderkonah.

3. The District Superintendent reported that the previous general fall in prices on the whole continued. In Beenpore thana a rise was reported, rice selling there at 17 seers, 18 chittacks, and paddy at 32 seers to the rupee, as against 18 seers and 40 seers to the rupee as reported last week. At the same time, information had been received from Mr. Larymore that rice was being imported into Beenpore in large quantities from Singbhoom. As this importation appeared to be inconsistent with the reported rise of prices, the District Superintendent was asked to inquire into the facts, and report to the committee at their next meeting.

4. Mr. Macaulay also laid before the committee a statement shewing the number of labourers employed on relief works. It appears that the number has diminished; but Mr. Macaulay attributes this to the fact that the recent rainfall has rendered ploughing possible, and he expects that the demand for employment will soon rise to its former level.

5. The purchase of rice in Midnapore has been proceeding steadily, and since last meeting Baboo Kally Prosono has made over 300 maunds to Mr. Anderson for storage in Messrs. Watson's factories.

6. A report from Baboo Gossain Dass Dutt, dated Chunderkonah, 18th March, was laid before the committee. He states that 128 of the Chunderkonah weavers have consented to learn to weave gunny, on condition that they are paid three annas a day while learning, and their gunny is bought at a fixed price afterwards. The committee sanctioned these terms on the strength of his statement, that nothing under three annas a day would enable the weavers to support their families. He said that he wanted persons who understood gunny-weaving, to act as teachers. The Secretary was accordingly directed to apply to the Superintendent of the jail for a gunny loom and two prisoners who understand gunny-weaving, and to send the loom and prisoners under a guard to Chunderkonah as soon as possible. The District Superintendent also undertook to find from among the released prisoners in that part of the district some who had been taught gunny-weaving when in jail.

7. One loom has already been despatched to Chunderkonah with two prisoners to work it, and five looms have been ordered to be made on the same pattern as those used for gunny in the district jail. It is hoped that on setting these looms at work the weavers may be induced to convert their own looms into gunny looms, a change which can be effected with tolerable ease.

8. Baboo Gossain Dass also reported serious distress among the non-weaving classes, and recommended that road works should be commenced as soon as possible. Rs. 200 have been sent for road-work, and he has been further authorized in cases of great necessity to give tickets for cooked food in connection with the food-depôt already established for the relief of sufferers from the epidemic. His full report on the state of the weavers had not been received by last Saturday, so that the question of the wisdom of assisting the weavers in their own special trade could not be discussed at the last meeting.

9. The subscription at present stands thus:—

	Rs.
Amount of subscription promised	7,044
Amount paid in up to 25th March	994

H. H. RISLEY, *Secy. to the District Relief Committee.*

" Gopal Chunder Sen.
" Sunjeeb Chunder Chatterjee.
" Bogolanund Mookerjee.
" Motee Lall Chowdhoory.

It was resolved—

(1.) That charitable relief food-depôts should be opened at all the places where fever food-depôts now exist, but have to be closed, owing to the fever relief fund being exhausted.

(2.) That each sub-divisional committee should be authorized to spend up to the amount of the subscriptions realized in such sub-division, plus the Government addition thereto, reporting all such expenditure to the district committee.

(3.) That a remittance of Rs. 1,000 should be made to the Cutwa sub-committee.

(4.) That a permanent advance of Rs. 100 should be made to Baboo Bogolanund Mookerjee for relief purposes.

(5.) That Baboo Sriram Ghose should be asked to join the committee. Mr Cockburn reported that he had visited Chuckdighee and Khol, in Indass, and there was no distress there.

(6.) Baboo Bogolanund Mookerjee reported having visited Royan, and that there was slight distress there.

(7.) The reports of the village sub-committees were read, and it was resolved that inquiries should be made by members of the committee in Boikantapore, in Thanas Burdwan and Oorgram, Mehta and Keshera, in Shahibgunge.

(8.) The Chairman reported receipt of a remittance of Rs. 10,000 from the Central Committee.

Bills of the Bengal Council.

GOVERNMENT OF BENGAL.

LEGISLATIVE DEPARTMENT.

[First Publication.]

THE following Report of the Select Committee, on the Bill to amend the Calcutta Markets' Act, VIII of 1871, with the Bill as amended by the Committee, is, by order of the President, published for general information :—

WE, the undersigned Members of the Select Committee of the Council of the Lieutenant-Governor of Bengal for the purpose of making Laws and Regulations, to which the Bill to amend the Calcutta Markets' Act, VIII of 1871, was referred, have the honor to report that we have considered the above Bill, and have made the following amendments :—

1. We have defined the word "market" to mean "a market carried on under the control of the Justices of the Peace for the Town of Calcutta;" in order to meet the case of any single person carrying on a market immediately under the direction of the Justices. We have also inserted Section 6 of the present Bill after Section 2, and have slightly altered the same so as to allow the Justices to exercise their discretion in granting licenses only at a meeting. We have erased clause (*e*) of Section 2 as unnecessary.

2. We are of opinion that if power is accorded to the Justices to purchase, establish, and carry on Municipal Markets, power should also be accorded to them to close, sell, or let out the same, and also to sell or let out land which remains in their hands after the closing of any market. To give them power to establish and carry on only, would, we think, tie them down to carrying on a business which might be an unremunerative one, to the detriment of the tax-payers. We have therefore after Section 3 of Bill inserted two fresh sections to the above effect.

3. We have struck out Section 7 of the Bill as unnecessary.

4. We have in Section 8 inserted the words "at a meeting" after the word "Justices" in the first line, as we are of opinion that a matter involving a somewhat unusual expenditure out of the Municipal Fund should be sanctioned by a majority of their number at a meeting.

5. For greater certainty we have inserted certain words at the end of Section 11, in order to give the Justices the same powers for the purposes of this Act as they already possess under former Municipal Acts.

6. We have made a few verbal and unimportant amendments.

7. Generally we are of opinion that, this Bill being an enabling Bill, it is advisable to give to the Justices the most complete powers in so far as such powers are in accordance with the original intention of the Bill, leaving it to the wisdom of the Justices to accept any alternative they may consider most conducive to the interests of the tax-payers.

ABDOOL LUTEEF.
DOORGA CHURN LAW.

The 2nd April 1874.

I object to Section 8 of the Bill, inasmuch as it sanctions trading or speculation by the Justices and throws upon the Municipal Fund all the risks of it. I hold that it does not fall within the legitimate functions of a Municipal Corporation to carry on competition with private capitalists, and that it would be a misuse of the funds contributed by the general tax-payers, if the same were made applicable for "any purpose or purposes which the Justices may deem necessary for establishing or carrying on the market, or conducive thereto."

The 2nd April 1874.

D. LAW.

AMENDED BILL.

A Bill to mend Act VIII of 1871 *(for the better regulation of Markets in Calcutta, and to empower the Justices to establish Municipal Markets).*

Preamble.

WHEREAS it is expedient to amend the Calcutta Markets' Act, 1871, and to give further power to the Justices of the Peace for the Town of Calcutta to acquire land by purchase, lease, or otherwise, for the purpose of providing municipal markets, and to borrow money for the like purpose, and to regulate and maintain such markets, it is enacted as follows:—

Interpretation clause.

1. In this Act, unless there be something repugnant in the subject or context—

The Justices.

"The Justices" mean the Justices of the Peace for the Town of Calcutta.

Market.

"Market" means a market carried on under the control of the Justices of the Peace for the Town of Calcutta.

Lieutenant-Governor.

"Lieutenant-Governor" means the Lieutenant-Governor of Bengal for the time being.

Repeal of Acts.

2. The following words and sections in Bengal Act VIII of 1871 are hereby repealed:

In Section 2 the words "and the said Justices shall grant such license whenever it shall be certified to them in writing, under the hand of the Health Officer of the Justices, that such place is fit to be used as a market."

Section 3.

In Section 4, the words "unless such place shall have been used as a market for the sale of similar articles at the time of the passing of this Act."

Sections 6, 7, 8, and 9.

But such repeal shall in no way affect places in respect of which licenses have been granted or which have been registered under the provisions of Bengal Act VIII of 1871, and such places shall still remain subject to the provisions of such last-mentioned Act as if this Act had never been passed.

Grant of licenses to be discretionary.

3. Every license to be granted under the provisions of Bengal Act VIII of 1871 shall be in the absolute discretion of the Justices at a meeting.

Power to Justices to acquire land for markets.

4. It shall be lawful for the Justices from time to time, if they shall think fit, with the sanction of the Lieutenant-Governor, to acquire land by purchase, lease, or otherwise, in order to provide places within the limits of the Town of Calcutta, for the purpose of being used as markets, and for the like purpose to purchase or take on lease any land now used within such limits as a market (other than a market as defined in this Act), or registered as such, upon such terms, or subject to such conditions as they may consider necessary, and to appropriate any land now vested or belonging to them, and to set out the whole or such parts thereof as they may think necessary, for the purposes of such markets, and thereupon from time to time to build and maintain such markets and such stalls, sheds, pens, and other buildings or conveniences for the use of the persons frequenting such markets, and for weighing and measuring goods sold in such markets and on such lands as aforesaid, or on other land purchased for that purpose to make and maintain all such roads and approaches thereto as they may think necessary, and from time to time to make such bye-laws as they may think fit for all or any of the following purposes:—

and to make bye-laws.

(*a*) For regulating the control and use of such markets, and the buildings, stalls, pens, and standings therein, and for preventing nuisances or obstructions therein, or in the immediate approaches thereto.

(*b*) For preventing the use therein of false or defective weights, scales, or measures.

(*c*) For preventing the sale or exposure for sale therein of unwholesome meat, fish, or provisions.

(*d*) For the establishment and publication of a price current, by measure, weight, or table, of the articles sold therein, and for prescribing the mode of sale of such articles.

(*e*) For keeping such markets in a cleanly and proper state, and for removing filth and refuse therefrom.

Power to Justices to sell or let markets.

5. It shall be lawful for the Justices to sell, or to let to tenants on lease or otherwise, on such terms as they may think fit, any market, or any part thereof, and to do all things necessary for carrying the provisions of this section into effect.

Power to Justices to close markets or to sell or let land formerly used as markets.

6. It shall be lawful for the Justices to close any market, or any part thereof, or to sell, or to let out to tenants on lease or otherwise, any land heretofore used as a market, or any part thereof, on such terms as they may think fit, and to do all things necessary for carrying the provisions of this section into effect.

Justices to have the same power as to bye-laws as under Act VI (B.C.) of 1863.

7. The Justices shall, with regard to bye-laws under this Act, have the same and the like powers as are given to the Justices with regard to bye-laws under Section 218 of Bengal Act VI of 1863, and all bye-laws made under this Act shall be subject to the same and the like rules as to alteration, confirmation, and publication, as are enacted in Sections 219, 220, 221, and 223 of Bengal Act VI of 1863.

Bye-laws to be hung up in markets.

8. All bye-laws made and sanctioned under this Act, in addition to being published as provided in Section 221 of Bengal Act VI of 1863, shall also be painted or placed on boards, and put up in the English and Bengalee languages in some conspicuous place in every market.

Power to Justices to carry on markets.

9. It shall be lawful for the Justices at a meeting, out of the Municipal Fund as defined by Section 6 of Bengal Act VI of 1863 and out of the monies borrowed under the provisions of this Act, and out of monies derived from the rents of buildings, stalls, pens, or standings in any market, and from any fees realized from any

market, to expend such sums of money as they may think necessary for the construction, maintenance, and keeping such market in repair, and for any other purpose or purposes which the Justices may deem necessary for establishing or carrying on the same or conducive thereto, and all sums of money heretofore expended by the Chairman of the Justices, or by the Justices, towards establishing, completing, opening, maintaining, keeping in repair, or carrying on any market are hereby declared and deemed to be considered and taken as if spent under the provisions of this Act.

Monies heretofore expended to be considered as expended under this Act.

10. For the acquisition of land for the purposes set out in Section 3 of this Act, and for the purposes mentioned in the last preceding Section of this Act, the Justices may, from time to time, with the sanction of the Lieutenant-Governor, borrow, in addition to the sums mentioned in Section 9 of Bengal Act IX of 1867, Section 15 of Bengal Act VIII of 1871, and Section 1 of Bengal Act I of 1872, at such rate of interest, and upon such terms as to the time of repayment or otherwise, as the Justices, with the previous sanction of the Lieutenant-Governor, may approve, any sums of money the Justices may require for the objects aforesaid, not exceeding in the aggregate seven lakhs of rupees.

Power to Justices to borrow money to the extent of seven lakhs.

11. Every penalty imposed by this Act, or any Act incorporated therewith, or by any bye-laws in pursuance thereof, shall be recovered, enforced, and applied in the same manner as fines and penalties are directed to be recovered, enforced, and applied by Sections 233 and 234 of Bengal Act VI of 1863.

Penalty to be recovered as under Act VI (B. C.) of 1863.

12. This Act shall be read with, and taken as part of, Bengal Acts VI of 1863 and VIII of 1871, and all the powers, privileges, and rights conferred on the Justices by virtue of and for the purposes of such last-mentioned Acts, shall be deemed to be conferred on the Justices for the purposes of this Act in so far as the same are applicable or necessary.

Construction of Act.

13. This Act may be called the "Calcutta Municipal Markets' Amendment Act, 1874."

I.—PRELIMINARY.

Short title.

1. This Act may be called "The Privy Council Appeals Act, 1874:"

4. Subject to such rules as may, from time to time, be made by Her Majesty in Council regarding appeals from the Courts of British India, and to the provisions hereinafter contained—

an appeal shall lie to Her Majesty in Council,

(*a*) from any final decree passed on appeal by a High Court or other Court of final appellate jurisdiction,

Refusal of certificate.

10. If such certificate be refused, the petition shall be dismissed:

Provided that, if the decree complained of be a final decree passed by a Court other than a High Court, the order refusing the certificate shall be appealable within thirty days from the date of the order, to the High Court to which the former Court is subordinate.

Security and deposit required on grant of certificate.

11. If the certificate be granted, the applicant shall, within six months from the date of the decree complained of, or within six weeks from the grant of the certificate, whichever is the later date,

(*a*) give security for the costs of the respondent, and

(*b*) deposit the amount required to defray the expense of translating, transcribing, indexing, and transmitting to Her Majesty in Council a correct copy of the whole record of the suit, except

(1) formal documents directed to be excluded by any order of Her Majesty in Council in force for the time being;

(2) papers which the parties agree to exclude;

(3) accounts, or portions of accounts, which the officer empowered by the Court for that purpose considers unnecessary, and which the parties have not specifically asked to be included; and

(4) such other documents as the High Court may direct to be excluded;

and when the applicant prefers to print in India the copy of the record, except as aforesaid, he shall also, within the time mentioned in the first clause of this section, deposit the amount required to defray the expense of printing such copy.

Admission of appeal and procedure thereon.

12. When such security has been completed and deposit made to the satisfaction of the Court, the Court may

(*a*) declare the appeal admitted, and

(*b*) give notice thereof to the respondent,

and shall then

(*c*) transmit to Her Majesty in Council, under the seal of the Court, a correct copy of the said record, except as aforesaid, and

(*d*) give to either party one or more authenticated copies of any of the papers in the suit on his applying therefor and paying the reasonable expenses incurred in preparing them.

Revocation of acceptance of security.

13. At any time before the admission of the appeal, the Court may, upon cause shown, revoke the acceptance of any such security, and make further directions thereon.

Power to order further security or payment.

14. If at any time after the admission of the appeal, but before the transmission of the copy of the record, except as aforesaid, to Her Majesty in Council, such security appears inadequate,

or further payment is required for the purpose of translating, transcribing, printing, indexing, or transmitting the copy of the record, except as aforesaid,

the Court may order the appellant to furnish, within a time to be fixed by the Court, other and sufficient security, or to make, within like time, the required payment.

Failure to comply with order.

15. If the appellant fail to comply with such order, the proceedings shall be stayed,

and the appeal shall not proceed without an order in this behalf of Her Majesty in Council,

and in the meantime execution of the decree appealed against shall not be stayed.

Refund of balance of deposit.

16. When the copy of the record, except as aforesaid, has been transmitted to Her Majesty in Council, the appellant may obtain a refund of the balance, if any, of the amount which he has deposited under section eleven.

III.—Proceedings pending Appeals.

Powers of Court pending appeal.

17. Notwithstanding the admission of any appeal under this Act, the decree appealed against shall be unconditionally enforced unless the Court admitting the appeal otherwise directs.

But the Court may, if it think fit, on any special cause shown by any party interested in the suit, or otherwise appearing to the Court—

(*a*) impound any movable property in dispute, or any part thereof, or

(*b*) allow the decree appealed against to be enforced, taking such security from the respondent as the Court thinks fit for the due performance of any order which Her Majesty in Council may make on the appeal, or

(*c*) stay the execution of the decree appealed against, taking such security from the appellant as the Court thinks fit for the due performance of the decree appealed against, or of any order which Her Majesty in Council may make on the appeal, or

(*d*) place any party seeking the assistance of the Court under such conditions, or give such other direction respecting the subject-matter of the appeal, as it thinks fit.

Increase of security found inadequate.

18. If at any time during the pendency of the appeal the security so furnished by either party appears inadequate, the Court may, on the application of the other party, require further security.

In default of such further security being furnished as required by the Court, if the original security was furnished by the appellant, the Court may, on the application of the respondent, issue execution of the decree appealed against as if the appellant had furnished no such security,

And if the original security was furnished by the respondent, the Court shall, so far as may be practicable, stay all further execution of the decree, and restore the parties to the position in which they respectively were when the security which appears inadequate was furnished, or give such direction respecting the subject-matter of the appeal as it thinks fit.

IV.—Execution of Orders of Her Majesty in Council.

Procedure to enforce orders of Queen in Council.

19. Whoever desires to enforce or to obtain execution of any order of Her Majesty in Council shall apply by petition, accompanied by a certified copy of the decree or order made in appeal and sought to be enforced or executed, to the Court from which the appeal to Her Majesty was preferred.

Such Court shall transmit the order of Her Majesty to the Court which made the first decree

appealed from, or to such other Court as Her Majesty by her said order may direct, and shall (upon the application of either party) give such directions as may be required for the enforcement or execution of the same; and the Court to which the said order is so transmitted shall enforce or execute it accordingly, in the manner and according to the rules applicable to the execution of its original decrees.

Appeal against order relating to execution.

20. The orders made by the Court which enforces or executes the order of Her Majesty in Council relating to such enforcement or execution, shall be appealable in the same manner and subject to the same rules as the orders of such Court relating to the enforcement or execution of its own decrees.

Amendment of Act IX of 1871, schedule II, No. 169.

21. To the first column of No. 169 of the second schedule annexed to the Indian Limitation Act, 1871, the following words shall be added (that is to say), "or any order of Her Majesty in Council."

V.—MISCELLANEOUS.

Power to make rules.

22. The High Court may, from time to time, make general rules consistent with this Act to regulate—

PART VI.

Bills of the Legislative Council of India.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

[Second Publication.]

THE following Bill was introduced into the Council of the Governor-General of India for the purpose of making Laws and Regulations on the 24th March 1874, and was referred to a Select Committee with instructions to make their report thereon in two months:—

No. 5 OF 1874.

A Bill to diminish the multitude and improve the quality of Law Reports, and to extend the area of their authority.

Preamble.

WHEREAS it is expedient to diminish the multitude and expense of the law reports published in British India, and to improve their quality, and to extend the local limits of the authority of properly reported decisions of the High Courts of Judicature established under the twenty-fourth and twenty-fifth of Victoria, cap. 104:

And whereas with a view to furthering these objects, the Governor-General in Council proposes to authorize the publication of reports of cases decided by the said High Courts, to be called the Indian Authorized Law Reports; It is hereby enacted as follows:—

Short title.

1. This Act may be called "The Indian Law Reports Act, 1874."

Local extent.

It extends to the whole of British India;

Commencement.

And it shall come into force on the first day of January 1875.

Limits of authority of authorized reports extended.

2. Every judgment delivered on or after the said day by any of the said High Courts (whether by a Judge sitting alone, or by a Division Court, or by a Full Bench) and reported in the said Indian Authorized Law Reports, shall have the same authority in all subordinate Courts beyond the limits of the appellate jurisdiction of such High Court as independently of this Act it would have within such limits.

All Courts other than Courts established under the twenty-fourth and twenty-fifth of Victoria, cap. 104, shall be deemed to be "subordinate Courts" within the meaning of this section.

Authority given only to authorized reports after passing of Act.

3. No Court shall be bound to hear cited or shall receive or treat as an authority binding on it the report of any case decided by any of the said High Courts on or after the said day, other than a report published under the authority of the Governor-General in Council.

Authority of judicial decisions.

4. Save as provided by section two, nothing herein contained shall be construed to give to any judicial decision any further or other authority than it would have had if this Act had not been passed.

STATEMENT OF OBJECTS AND REASONS.

This Bill has been framed on the assumption that law-reporting in India should be regarded as a branch of legislation, and on the corollary that such work, so far at least as regards the decisions of the four High Courts, should be performed under the superintendence of Government.

Improvements in quality and arrangement may reasonably be expected from having the decisions of the High Courts reported only by competent persons and revised by a central editor. And it is desirable, and is one of the objects of the present Bill, to extend the local limits of the authority of decisions so reported and revised.

At present a decision (say) of the High Court at Fort William is binding only in the Lower Provinces. The Bill declares that every judgment delivered by any High Court and reported in the Government Reports shall be binding on all subordinate Courts throughout British India; and the Chief Court of the Panjáb, and the Courts of the Recorder of Rangoon and the Judicial Commissioners, are declared to be 'subordinate Courts' for the purpose only of the Bill.

At present, again, six sets of Reports are published in India, at an annual cost to the purchaser of about Rs. 300. To diminish the number and expense of the Reports which professional men must buy and read, is another object of the Bill. With this view, it declares that no Court shall be bound to hear cited, or shall treat as a binding authority, the report of any case decided by any High Court after the 1st January 1875, other than a report published under the authority of Government. Under the Evidence Act, section 84, the Courts will presume the genuineness of the authorized reports.

Cases decided on local Acts and of no general application will, when of sufficient importance to be reported, be published in separate volumes.

No. 126.—*Fort William, the 8th April* 1874.—*Notifications.—Public.*—The Hon'ble Sir George Campbell, K.C.S.I., has obtained permission from His Excellency the Viceroy and Governor-General to resign from this evening the office of Lieutenant-Governor of Bengal. His Excellency the Governor-General is pleased to direct, as a mark of respect due to the character and services of Sir G. Campbell, that all the honors and distinctions to which he is now entitled as Lieutenant-Governor of Bengal shall be continued to him until the period of his embarkation for Europe.

No. 128.—Under the authority conveyed by the 29th Section of the Act 21 and 22 Vic. Cap. CVI, His Excellency the Viceroy and Governor-General of India is pleased to appoint, subject to the approbation of Her Majesty, the Hon'ble Sir Richard Temple, K.C.S.I., of the Bengal Civil Service, to be Lieutenant-Governor of the Bengal Division of the Presidency of Fort William.

No. 141.—*The 9th April* 1874.—The Hon'ble Sir Richard Temple, K.C.S.I., having been appointed by His Excellency the Viceroy and Governor-General of India, subject to the approbation of Her Majesty, to be Lieutenant-Governor of the Bengal Division of the Presidency of Fort William, has this day assumed charge of the office under the usual salute.

The following Resolution, No. 1200A, dated the 8th April 1874, of the Government of India, in the Department of Revenue, Agriculture, and Commerce, is republished for general information :—

The Governor-General in Council has considered the 14th Special Narrative, submitted on the 2nd instant, of the drought in Behar and parts of Bengal, and the letter from the Government of Bengal, No. 2088—S.R. of the 6th instant, forwarding a Note reviewing the allotment of grain to each district and the arrangements for its transport, together with Minutes by Sir Richard Temple, summarising the present relief arrangements in the distressed divisions of Behar and Rajshahye.

The Narrative, with the Lieutenant-Governor's observations and instructions, has been published in the *Gazette of India*. The same publicity will now be given to these subsequent communications.

Sir George Campbell has been obliged, on account of the state of his health, to resign the office of Lieutenant-Governor of Bengal, and it is the gratifying duty of the Government of India to acknowledge the zeal and ability with which His Honor has from the first devoted himself to the arduous task of conducting the operations for the relief of distress. The Governor-General in Council desires particularly to record his high appreciation of the manner in which Sir George Campbell personally directed and supervised the relief organization on the occasion of his recent visit to North Behar.

The Governor-General in Council further desires to take this opportunity of expressing his entire concurrence in Sir George Campbell's acknowledgment of the obligation of the Government to Sir Richard Temple for the great energy and administrative power which he has shewn in co-operating with the Lieutenant-Governor for the purpose of completing the arrangements to meet the famine.

The Government of India have also to record their cordial recognition of the zealous and efficient services of the Commissioners of the Patna, Bhagulpore, and Rajshahye Divisions, and of the other officers mentioned by the Lieutenant-Governor and Sir Richard Temple.

It is not impossible that contingencies may arise which will place still greater strain upon the resources of the State, and call for additional exertions on the part of the officers of Government. But His Excellency confidently relies upon every officer doing his duty under a strong sense of the responsibility devolving upon him during the period of increasing distress which, it is to be feared, must be anticipated.

Financial Resolution, dated Fort William, the 10th December 1861.

"From correspondence that has lately passed between the Foreign Department and the Agent, Governor-General, for the States of Rajpootana, it appears that for upwards of a quarter of a century a fund called the "Batta Fund" has been in existence in the Mhairwara District, the money belonging to which remained in the hands of the Treasurer of the Deputy Commissioner of that district, without being exhibited in any shape whatever in the public accounts. To prevent such irregular proceedings, His Excellency the Governor-General of India in Council directs all officers of Government to bear in mind that all transactions to which they in their official character are parties, must, in future, without any reservation, be brought to account, and all moneys be deposited in the Government treasuries."

Circular to Local Governments and Administrations, Nos. 40—2630 to 2633, dated 14th August 1873, and replies received.

RESOLUTION.

IN MAY 1869 the Government of India in the Foreign Department sanctioned certain rules for regulating the importation of fire-arms and ammunition into the Lower Provinces of Bengal, and their transport from place to place within the limits of those provinces, under the provisions of Sections 17 to 22 of Act XXXI of 1860, and, at the same time issued a Circular to the other Local Governments and Administrations inquiring how far such rules would meet their respective requirements.

2. From the replies received it appears necessary to frame uniform regulations for placing the importation and inland transport of cannon and arms and ammunition under systematic control throughout British India.

3. And from other portions of the correspondence read, it appears desirable to prohibit the transhipment of cannon and arms and ammunition at certain British Indian ports, and to restrict the granting of passes for the exportation of cannon and arms and ammunition from British India.

4. The Governor-General in Council is therefore pleased to declare as follows:—

Firstly, as regards the importation of cannon and arms and ammunition, that licenses for import under Section 17, Act XXXI of 1860, will henceforward be granted only at places and by the officials named in the list appended to this Resolution. These orders will supersede the Notifications issued from the Home Department in October 1860 and July 1866, which authorized the chief police officer in every town and frontier district to grant licenses, and so much of the Foreign Office Notification of 1869 as relates to the importation of arms, &c., by sea or by land into India; also so much of the Notification (dated 22nd July 1873) which appeared in the *Calcutta Gazette* of 23rd July 1873, as relates to the importation of fire-arms and ammunition into the territories under the Government of Bengal.

Secondly, as regards the transhipment of arms, &c., that a Notification has issued under Section 6 of Act VI of 1873, prohibiting such transhipment at the ports to which that Act extends.

Thirdly, as regards the inland transport of arms, &c., from one part of India to another, that the rules, of which a copy is appended to this Resolution, are approved, and that they be published under Section 22 of Act XXXI of 1860; further that, in order to enable the Local Administrations under the Government of India to make similar rules for interior transport within their respective territories, a Notification has issued delegating to the Chief Commissioners

the power conferred upon a local Government by Section 22 of Act XXXI of 1860.

Fourthly, as regards the granting of passes for exporting arms and ammunition, that no such passes shall in future be granted for exportation either by land or sea, except by the Secretary to the Government of India in the Foreign Department, and such other officers as the Government of India, or the Governments of Madras and Bombay within their respective Presidencies, may have expressly authorized, or may hereafter expressly authorize, in this behalf. That all such passes shall be granted, subject, as far as may be, to the rules for the transport of arms within British India, and that, whenever there is a Political Agent, Cantonment Magistrate, or other British official at the place of destination, the pass shall be delivered to him within six days of the arrival there of the articles covered by it, with a view to his satisfying himself that there is no deficiency, in the same manner as a Magistrate of a British district is required to do by the inland transport rules.

HOME DEPARTMENT.

Fort William, the 28th November 1873.

NOTIFICATION.

UNDER the authority vested in him by Section 22 of Act XXXI of 1860, the Governor-General in Council is pleased, in supersession of all previous orders on the subject, to prohibit the transport of fire-arms and parts of fire-arms, and of gunpowder and other ammunition or military stores as described in Section 22 of the Act above cited, from any place in British India within the jurisdiction of one local Government or Administration to any place in British India within the jurisdiction of another local Government or Administration, except under the following rules and conditions.

2. Any person desirous of transporting any of the above-mentioned articles [except in reasonable quantities for his own private use] from any of the sea-port towns or frontier stations into which arms can be imported under license, into the interior of British India beyond the territorial jurisdiction of the local Government or Administration within the limits of which such sea-port or station is situated, must apply for a pass to the officer empowered by the Government of India to grant licenses under Section 17 of Act XXXI of 1860 for import to the sea-port or station.

3. When a person is desirous of transporting any such articles from any place in British India other than the sea-ports or stations referred to in the last preceding rule, to any place in British India within the territories of another local Government or Administration, he must apply for a pass to the Secretary to the Government of India in the Home Department, or to the Secretary to the Local Government of the territory out of which he desires to convey the articles, or to such other officer as the Government of India may have authorized by Notification to grant such a pass.

4. The application must in either case be in writing; it must specify the town, station, or other place into which the articles are intended to be transported, and must contain full information as to the quantity, quality, and description of the articles and the purpose for which they are respectively designed. Where the articles have been imported from abroad, the license under which they have been imported must be appended.

5. It will be within the discretion of the authorized officer to grant the pass if from the information thus given and otherwise obtained he considers that such pass may be safely granted. A register shall be kept of all passes so granted, and a copy of each pass shall be sent to the Magistrate of the district within which the place to which the articles are to be transported is situated.

6. The articles covered by such pass shall be taken direct to the place of destination mentioned in the pass without being sold or made use of at any intermediate place.

7. On the articles reaching their destination, the person in charge thereof must deliver the pass to the Office of the Magistrate of the district within six days. It will be the duty of that officer to satisfy himself that the articles transported correspond with the entries in the pass, and to see that any deficiency that may exist is satisfactorily accounted for. The pass shall then be endorsed and returned to the holder if he may lawfully keep in his possession the articles of which it covers the transport.

A sum of Rs. 500 was also, at last meeting, assigned to the Patna Roman Catholic Orphanages on the application of the Vicar Apostolic, but, owing to bank holidays, has not yet been actually remitted.

5. After making these allotments for April, and paying current petty expenses, there was in the bank on the 31st March a sum of Rs. 12, 65, 230-11 to the credit of the fund. Measures have been taken to have an estimate of the requirements of the several districts for May prepared and submitted to the Committee by the middle of the month, so that further allotments may be made in time.

6. The Chairman is in communication with Government on the subject of the reports of the operations of district committees to be submitted to the Committee. Meantime the Committee has regularly received copies of the fortnightly narrative of relief measures prepared under the orders of Government. The measures of gratuitous relief, and relief in the other forms embraced by the Committee's notification of the 4th March are there noticed.

7. The Committee has had under consideration the question of provision for orphans referred to it by the Government of Bengal. It was resolved to adopt the principles laid down by the Committee of 1867, extracted below, and to ask Government to furnish, from time to time, such information as would enable the Committee to make some calculation of the charge likely to be thrown on the fund on this account.

"I.—The ages, names, personal description, place of birth or residence, custody and percentage of the children, to be ascertained and given as accurately as possible; and proclamations to be made at the localities indicated, and at all thanas, calling upon any parents, relatives, or friends, to come forward and claim the children.

"II.—If parents or other fit guardians of the children's creed come forward and claim the children, they are to be given up to them, and some donation is to be made in support of them.

"III.—If no such person come forward, the children are to be either left in the guardianship in which the Committee find them, or are, from time to time as they come in, to be made over to such guardianship as, bearing in mind the 2nd principle laid down, the local Committees may select.

"IV.—Calculation is to be made in the case of each child as to the time that such child is likely to be a burden to its guardian, and as to the cost of such guardianship, and provision is to be made to meet such cost to such extent as the fund at the Committee's disposal may admit of, and to as much as possible the contentment of the guardian."

8. Finally, the Committee has been in communication with the Lord Mayor of London, the Mayor of Manchester, and the Chairman of the Madras Relief Committee on the subject of the mode of distribution of funds, and every endeavour has been made to satisfy the reasonable enquiries of subscribers.
